

**Waste & Recycling Services Bid – Due 5/8/25**

**Addendum #1 – 4/28/25**

- 1) Strike entire Bid Specification section (pages 1-5) and replace with updated Bid Specification section (pages 1-4).**
  - a. This is to remove duplicate and potentially conflicting information and provide additional clarity.
- 2) Note that on the Bid Proposal Form that the Lump Sum requested is the total for all relevant data in the Bid Specification section, not just page 3.**
- 3) Vendor Question: What size dumpster is required at each school for recyclables? Also, are the 96-gallon totes used for transport only or will they need to be emptied as well?**
  - a. Dumpster requirements for each location are indicated on page 3 & 4 of the Bid Specifications.
  - b. The totes are for transport only.
- 4) Vendor Question: Is the open top serviced 4x per week or is it 17 96-gallon containers that will need to be serviced 4x per week? (this question is regarding Naperville North)**
  - a. The recycling dumpster is specified as an 8-yard dumpster. The 96-gallon containers are for transport only so only the dumpsters will need to be serviced 4x per week.

Please sign on the line below and include this sheet with your bid proposal to acknowledge your receipt of this information.
