

November 11

- In Sports...Last night, your 8th grade single-A basketball team faced off against the Fischer Falcons at home. The Wildcats played their best throughout the entire game, maintaining a steady lead, finishing with a 33 to 13 victory! Your Hustle Player of the Game is Landon B., who made incredible steals all night. The Offensive Player of the Game is Max V., scoring 8 points! Big shoutouts to Mac C. for sinking two amazing three-pointers and Everett K. for great ball control and outstanding defense. Come cheer on your Wildcats tomorrow night at home against Gregory! Go Wildcats!
- Last night, the 8th grade double-A basketball team also battled the Falcons at home. It was a tough game, and unfortunately the Wildcats were not able to finish with the win, losing 53 to 23. Although the game was not ideal, we did have some great moments. Your hustle player of the game was Chase Knerim with four points and great steals and always hustling up and down the court. Come see your Wildcats play at home against Gregory on Wednesday. Go Cats!
- Your 7th grade double-A Wildcats took their show on the road and beat a good Fischer Falcon team by a score of 30 to 28. The Wildcats came out and played a spirited first half but had trouble hitting their shots. The Cats played great team defense and found themselves down only 16-13 after the first half. The Wildcats found themselves down by 6 going into the fourth quarter and that's when the book written by coach Brooks came in handy, in Chapter 15 it states "if the other team has a good player, then you should try to stop him". Coach Brooks would have been proud of the team as they overcame the deficit and closed the game out for their first win of the season. The Top Cat of the game was James Wingle for his relentless defense and his overall game last night! The 7 AA record stands at 1 win and 1 loss... Next up the Wildcats will be on the road against the Gregory Pioneers.
- The girls basketball intramural for 6th grade girls is canceled tomorrow morning. We will meet again on Thursday morning before school. Questions—see Mrs. Denius
