

Did you know?

The Naperville Education Foundation (NEF) makes a profound difference in the lives of our students through funding vital programs that fall outside of District 203's tax-supported budget.

- **Annual Grant Awards** - NEF awards grants to support innovative and creative projects that stimulate student engagement. Projects are proposed by staff, students, and parents.
- **Kid Booster Anonymous Fund** - NEF provides students from low-income families funding to meet unique educational, physical and provide socio-emotional needs. We help with the basics or the boost they need to enrich their school experience (i.e. counseling, etc.).
- **Start the Day** - NEF provides snacks to young students who may come to school hungry. We want to ensure that all of our young students "start their day" ready to effectively concentrate in their classes. Federal funding is provided for lunch but not breakfast.
- **Study Skills Academy** - NEF provides funding to supplement before/after school programs to give students a boost with homework and learning strategies.

These exceptional opportunities are only possible because of the generosity of parents like you, teachers and other staff members, friends and businesses in our community.
