

Naperville North High School

Geometry

Department Chair: Tim Brown

Office: Math Office Room 206

Email: tbrown@naperville203.org

Mission

To educate students to be self-directed learners, collaborative workers, complex thinkers, quality producers, and community contributors

Course Description

This course provides students with the fundamental vocabulary, properties, language, content, and procedures of geometry. Topics include triangles, circles, polygons, and parallel lines, with an introduction to coordinate and solid geometry. Emphasis is placed on construction of formal proof, the analysis of the nature and structure of a logical system and on problem solving skills. This course includes applications of the students' algebraic skills. A graphing calculator is recommended.

Course Topics

- Basics of Geometry
- Parallel & Perpendicular Lines
- Transformations
- Congruent Triangles
- Concurrency in Triangles
- Circles
- Similarity
- Right Triangles
- Quadrilaterals
- 2-D Figures Area
- Prisms Surface Area & Volume
- 3-D Solids Surface Area & Volume

Grading Practices

Grades communicate each student's progress toward mastery of goals/standards for the course.

- No extra credit will be issued.
- Violations of the academic integrity policy will be consequence by administration in collaboration with the DC/teacher.
- In Infinite Campus, a score of "Missing" (M) will indicate an assessment has not been turned in. The due date will be indicated as a comment in Infinite Campus. After that due date, a zero (0) will be recorded.
- **Practice/Homework:**
 - Practice work is not accepted for credit after the due date.
- **Quizzes/Tests (Evidence):**
 - Students have 5 school days to complete missing evidence. (An 'M' for Missing will be put in the gradebook and if not completed after 5 days will be changed to a 0).
 - If a legitimate attempt is made on a Quiz/Test, a score of 50% will be the lowest possible grade.
 - A zero on a Quiz/Test will only indicate that no attempt was made by the student.
 - Quizzes do not have a retake option.

Reassessments:

The purpose of reassessment is to allow students to demonstrate mastery of course standards in which they remain deficient. Higher reassessment grades will replace the original assessment score, but will not exceed 85%.

- Practice work is not eligible for reassessment.
- Evidence of Learning work may be eligible for reassessment. Refer to the chart below for eligibility:

<input type="checkbox"/> The assessment included multiple opportunities for feedback and improvement in the process for the final product OR formative assessments are aligned to standards, allow students to practice in the same assessment format, and gain feedback for improvement before the summative assessment.	<input type="checkbox"/> There was timely and consistent completion of practice work and formative assessments. <input type="checkbox"/> A one-time performance on an assessment does not reflect the student's level of proficiency leading up to the assessment. <input type="checkbox"/> Summative assessment score is below 85%.
Not eligible for reassessment	Eligible for reassessment if all three statements above are true.

Reassessment Parameters:

- The reassessment opportunity will require designated learning experiences that demonstrate readiness as assigned by the teacher.
- Reassessments MUST be completed within 5 school days of the student receiving feedback unless otherwise determined by the instructor. The reassessment deadline should be communicated in an IC comment.
- The final reassessment score will be capped at 85%

Academic Integrity Code:

District 203 students are challenged to address the academic process enthusiastically, diligently, and most importantly, honestly. It is the responsibility of our students, teachers, and administration to uphold the fundamental academic values of honesty, responsibility, fairness, respect and trust. The integrity of our district's academic programs is built upon these principles.

Academic integrity violations include cheating, plagiarism, self-plagiarism or copy infringement, obtaining or providing an unfair advantage, using a writing service and/or AI in place of original work unless specifically authorized by staff, falsification of documents, unauthorized access to records, and inappropriate collaboration, whether intentional or unintentional. The classroom teacher and administration will collaborate and exercise professional judgment in determining academic integrity violations.

D203 AI Belief Statement:

At Naperville North High School, we strive to build a learner's mindset in all students, developing qualities such as adaptability, communication, critical thinking, and global citizenship. Generative Artificial Intelligence (AI), offers new opportunities to engage with important technology relevant to the future that also raises significant educational considerations. AI tools provide unique ways to engage students in the learning process, hence we encourage our staff to guide students in using AI responsibly. Teachers have the authority to establish guidelines for AI use in their classrooms, setting clear expectations for how AI can be used on learning tasks. Concurrently, we recognize that reliance on AI risks replacing genuine student engagement and original thought, undermining the

attributes we aim to cultivate. Striking a balance between leveraging AI tools effectively and maintaining educational standards is crucial to the learning experience of each student.

Grading Disbursement

A \geq 89.5%

B \geq 79.5%

C \geq 69.5%

D \geq 59.5%

F < 59.5%

Semester Grade:

- Coursework = 85% (Practice =10% Tests (Evidence) =60%, Quizzes (Evidence) =30%)
- Final Exam =15%

Math Support

Students who do not demonstrate mastery of the essential learning standards on the test at the end of each unit of study will be assigned to Math Support. The classroom teacher will initiate this mandatory schedule change. Math Support is an intervention that will occur daily in the first half of the student's lunch period. They will work with two math teachers to address any misconceptions of the essential learning standards. Once they demonstrate mastery, they will be exited from this support with an updated Test score of 70%. If this support is necessary, parents and students will receive notification of the schedule change from the Math Department Chair.

Additional Resources for Support

- Make an appointment with your teacher.
- Drop in for Peer Tutor/Math Help through the Academic Support Services
- WIN Sessions
- Online Resources:
 - Digibook Geometry: <https://naperville203geometry.weebly.com/>
 - Canvas (notes, practice): <https://naperville.instructure.com>
 - Khan Academy Geometry: <https://www.khanacademy.org/math/geometry>

Parents & Guardians/Communication

Naperville North believes in a collective partnership with parents/guardians which provides students the best opportunities for success.

Some ways parents/guardians can support their student's learning are:

- Encourage your student to speak directly with their teacher about questions or concerns.
- Actively check Infinite Campus for their student's grade.
 - Infinite Campus is a tool to monitor student progress until final course grade is posted.
 - Monthly progress grades are posted and represent the current grade of a student in the course at that moment in time.
- Discuss missing assignments, reiterate due dates, help organize folders, materials, assignment notebooks and review upcoming projects and assessments.
- Teachers make every effort to respond to parent emails and phone calls within 48 hours during the work week.
- The best way to communicate with teachers is through email; however, if you haven't received a response within 48 hours, please resend the email or call their voicemail. Your email may have been filtered.
