

## **Naper Home & School Association**

We are a group of parents who are passionate about supporting the education of our children through volunteering, fundraising, and community building. The funds we raise provide field trips, assemblies, class holiday parties, year-end activities, birthday books, classroom enhancements, and so much more!

Of course, there is no way we could do so many great things without many parents and guardians taking an active role in H&S. In addition to making Naper an amazing place for students, volunteering provides opportunities to meet staff and other parents. Whether you have 30 minutes from home or a few hours to serve within the school walls, your ideas, your time, your talents, and your voice are needed and welcomed.

There are endless ways to contribute, so please be on the lookout for 2024- 2025 Volunteer Information or don't hesitate to contact us with any questions.
